

# Contract Hire

Contract hire offers a wide range of benefits to most organisations and remains by far the most popular form of contract available from Bramall & Jones Leasing.

A contract hire agreement enables you to fix your vehicle costs for a pre-determined term and mileage enabling you to reduce your financial burden and risk.

Your organisation leases the vehicle from Bramall & Jones Leasing for an agreed term and mileage at a fixed monthly rental.

We take over all the risk associated with the depreciation of the vehicle and at the same time reduce the administration associated with running a vehicle fleet.

With a contract hire agreement the vehicles are owned by Bramall & Jones Leasing and do not appear on your company's balance sheet. For many companies this is desirable as it enhances the gearing ratio.

By removing the depreciating assets from your balance sheet you are able to invest the freed capital in revenue generating areas of the business.
