

Outsourcing

Outsourcing enables you to concentrate your resources, time and effort into the core areas of your business, while letting Bramall & Jones Leasing do what we do best which is looking after your fleet requirements.

We can take over the direct driver liaison with your fleet users, assisting and guiding them throughout the company car process. From assistance with vehicle choice and tax implications, swapping mobile phone equipment, distribution of tax disks, booking of services through to collection of vehicle at end of use. We take away the hassle and make sure they have a single point of contact for all queries.

You are in control and decide which aspects of your day to day fleet operation you wish to outsource. Set levels of authority and identify which items you wish to have referred back for approval. You pick and choose the elements you want us to manage.

Our menu facility for choosing the services you want ensures that the package we provide for you is individual to your needs and you don't pay for services you don't want. Our consultants will work through the menu with you and explain each element in detail. We can bring as much to the management of your fleet as you want and our consultants will always be on hand to keep you up to date with what is happening in the industry.

The following elements can be included in an Outsourcing agreement with Bramall & Jones Leasing:

- Manufacturer negotiations
- Car policy administration
