

Sale and Leaseback

The opportunity for organisations to take advantage of a Sale and Leaseback agreement has never been so clear. Continuing low interest rates give the chance for companies to lock in low costs and fixed rentals on their vehicle fleet.

Bramall & Jones Leasing will buy your existing vehicle fleet for an agreed price and lease the same vehicles back to you for a fixed monthly rental. We agree with you the purchase price that we will pay for the vehicles and then work out the rentals based on the future term and mileage plus any maintenance pack required.

This will have an immediate impact on your balance sheet and cashflow by removing assets and providing cash for you to use in the business.

Significant benefits can be gained from entering into a Sale and Leaseback agreement. You continue to use the same vehicles as before but you no longer have to be concerned about the depreciation and the risk of loss on disposal. If you choose a maintenance package we will take care of the service and repair, all for a fixed monthly payment.
